FOREWORD

The International Research Academy of Science and Art is the host of the forth IRASA International Scientific Conference "SCIENCE, EDUCATION, TECHNOLOGY AND INNOVATION – SETI VI 2024".

The conference is multidisciplinary oriented.

Thematic fields of the SETI VI 2024 conference are the following:

- A. Science, technology and innovation**
- B. Education and knowledge for the 21 century**
- C. Preservation and improvement of the environment and human health**
- D. Sustainable territorial development**
- E. National security and protection**

The **aims** of the SETI VI 2024 Conference are the following:

- Improving knowledge basis for sustainable and resilient local, national, transnational and global development
- Support and harmonization of the implementation of sustainable development goals in society, economy, environment and urbanization
- Strengthening scientific, technological and innovative capacities at local, national and transnational level
- Recommendations for the improvement of education, research and security, and governance of the environmental, urban and territorial development
- Dissemination and intensification of professional communication and establishment of network for joint research, innovation and education
- Dissemination and intensification of professional communication and establishment of network for security challenges and risks in environment and society
- Experience Exchange Based on Best Practices

The results of the SETI VI 2024 Conference are presented in two publications:

- The Book of Abstracts,
- The Book of Proceedings.

Belgrade, October 2024
